SUMMARY

Full-Stack Software Development trainee at IBT College of Canada with a BSc in Mining Engineering. Built responsive web applications using HTML, CSS, JavaScript, React and Next.js, with hands-on experience in Git/GitHub, APIs, forms, routing, state management and browser storage. Seeking a software development internship where I can contribute to practical, user-centred products.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React, Next.js, responsive design, component-based UI, routing, forms

Web: REST APIs, fetch, JSON, browser localStorage, client-side validation

Tools: Git, GitHub, VS Code, Vite, npm

Other Digital Skills: Microsoft Office, data entry, digital marketing fundamentals

PROJECTS

Addis Eats — food ordering web application

React / Next.js · JavaScript · CSS · Git / GitHub

• Built customer food-ordering flows including menu browsing, search/filtering, dish details, cart, checkout, confirmation and order history.

• Implemented reusable components, routing, loading/error states, authentication flows and admin features for managing dishes and orders.

• Developed and submitted the project through incremental Git commits and a successful production build.

Code: github.com/birhanukiros-tech

Addis Eats — HTML/CSS/JavaScript food-ordering application

HTML5 · CSS3 · JavaScript · JSON · localStorage

• Created a browser-based food ordering experience with menu search/categories, favorites, cart drawer, checkout and order confirmation.

• Added customer order history and admin dashboard functionality using browser localStorage without a backend.

EXPERIENCE

Intern — Rack Mak

March 2024 – June 2024

• Gained practical workplace experience and supported assigned technical/project activities.

• Worked with digital tools and professional workflows in a team environment.

Intern — Digital Addis

Digital / Technical Internship

• Gained practical experience in digital work and professional communication.
